Draft Technical Memorandum (TM) No. 1 to the Final RFI/RI Work Plan for Operable Unit No. 3

TO:

Autar Rampertaap, Chief, Rocky Flats Branch, EM-453, HQ

Attached please find Draft Technical Memorandum (TM) No. 1 to the Final RFI/RI Work Plan, Operable Unit No. 3 for the Rocky Flats Plant, dated April 7, 1993. This replaces the previous TM-1 that was sent to you, as RFO and EG&G agreed that the document should be completely rewritten.

Because we need to get regulator approval and be in the field for our final sampling, please return comments no later than close of business April 14, 1993. If they can be returned sooner, better yet. If you have any questions, please call Bob Birk at (303)966-5921.
